

## Cupola Series for Decorative Lighting

# *Cupola Series*

Smoky Brown  
Tinted Globe

Charcoal Smoky  
Black Tinted Globe

The rounded lines and conical top makes the **Cupola Series** an attractive **Finial** for any decorative street or area light fixture that has a twistlock photocontrol receptacle. The look of **Traditional Lantern & Shoe Box** fixtures as well as modern **Decorative Designs** all benefit from the Cupola shape. With frosted sides the internal parts of the photocontrol are essentially invisible from the ground. The upward facing sensor addresses false operation from neighboring lights. The pointed top helps prevent bird roosting and droppings. Available in Charcoal Smoky Black or Smoky Brown tint.
